🚀 From 2,500 Units to 900,000: The Growth Story 0:00

- Greg and his wife placed their **first ever order in 2019: 2,500 units**
  - He contextualizes this number against the scale they later reached
    - 2,500 units = less than 1% of what two towers at their facility hold
    - Those two towers hold **900,000 units**
    - Their initial order represented roughly **0.001%** of that capacity
- The operation they eventually became part of consists of **11 facilities**
  - Each facility runs **24 hours a day, 7 days a week**
  - Facilities are spread across the country
- He was told he was working less than 12 hours a day
  - At that early stage, their 2,500-unit stock represented **weeks — if not months — of inventory**

⏱️ The Speed of Change 0:22

- The core message: transformation at this scale happened **within just a few years**
  - The implication is that putting everything into building a brand can produce dramatic, rapid results

> "In just a few years, all of this can change" — the central motivational takeaway of the video.
