How Claude Edits My Videos

Channel: Brandon Carter · Published: Nov 10, 2026 · Watch: https://www.youtube.com/shorts/tXDDfI-Mg6k Source: full transcript

📋 Executive Summary

Brandon Carter gives a rapid-fire demo of Claude AI handling video editing tasks — placing text, building effects, counting figures, and ranking tools — ultimately rating Claude S-tier and Blackmagic D-tier.

📑 Contents

- 🖊️ Text Placement
- ✨ Effects Creation
- 🔢 Number Counting
- 🏆 Tool Rankings

🖊️ Text Placement 0:00

- Brandon asks rhetorically "Who put these words here?" — implying Claude is responsible for placing on-screen text automatically
  - Suggests Claude can handle titling or caption placement within the editing workflow without manual input

✨ Effects Creation 0:00

- Claude can "create effects" on Brandon's behalf
  - No specific effect type is named, but the framing implies visual or motion effects used in his video productions

🔢 Number Counting 0:00

- When instructed, Claude can count numbers — the specific figure cited is **1,500,000 (15 lakh)**
  - Implies Claude assists with on-screen number displays, counters, or data callouts in videos

🏆 Tool Rankings 0:00

- Brandon has Claude rank everything he uses for video editing
  - **Blackmagic** (DaVinci Resolve): rated **D-tier**
  - **Claude**: rated **S-tier**

> Claude earns S-tier while the industry-standard Blackmagic tool lands at D-tier in Brandon's personal ranking — a strong endorsement of AI-assisted editing over traditional software.
