💥 The 8 Effects Demonstrated

- A title that "explodes" when poked
- A single word that "slams in" on screen
- A glass-style graph that climbs to 450K views, held in hand
- CapCut dropping to the C tier on an animated tier list
- His reels spinning around him
- A title sprayed off like shattering glass
- A title set on fire
- A "finger guns" effect

⚙️ The Workflow Behind It

- Every effect was produced by typing one command into Claude
  - The interface used is `/effects` followed by a description
- No editing app was used
- No human editor was involved
- The implied takeaway: complex-looking motion graphics are accessible to anyone who can type a prompt
