No Green Screen. Just Claude.

Channel: Brandon Carter · Published: Nov 14, 2026 · Watch: https://www.youtube.com/shorts/2493-uvo03U Source: full transcript

📋 Executive Summary

Brandon Carter shows off Claude AI generating live on-screen text effects behind him — no green screen required — including animated number counts and a tier-ranked list of his favorite AI tools.

📑 Contents

- 🎬 On-Screen Text Effects Demo
- 🔢 Animated Number Counting
- 🏆 AI Tool Tier Rankings

🎬 On-Screen Text Effects Demo 0:00

- Brandon opens by asking rhetorically who put the words appearing behind him
  - The implication is that Claude is generating and displaying the text effects in real time
  - No green screen is used — the effect is produced directly by Claude

🔢 Animated Number Counting 0:00

- Claude can animate a number count on screen when Brandon simply says a number aloud
  - Example used: **1.5 million** — the number visually counts up as he speaks it

🏆 AI Tool Tier Rankings 0:00

- Claude can also generate a ranked tier list of tools Brandon uses

Tool	Tier
Perplexity	D tier
Claude	S tier

- Claude ranks itself at the top (S tier) while Perplexity is placed at the bottom (D tier)
