

The best fat loss rules for guys over 30!

Channel: Brandon Carter · Published: Aug 14, 2026 · Watch: <https://www.youtube.com/shorts/JUwY9sJ8oMs> Source: full transcript

Executive Summary

Brandon Carter outlines ten fat loss rules for men over 30, covering daily steps, calorie and macro tracking, protein targets, avoiding liquid calories, full-body training, and sleep minimums, plus a free road map offer.

Contents

-  Rule 1: Walk 20,000 Steps a Day
-  Rule 2: Track Your Calories and Macros
-  Rule 3: Eat One Gram of Protein Per Pound of Body Weight
-  Rule 4: Stop Drinking Your Calories
-  Rule 5: Train Full Body Workouts Four Times a Week
-  Rule 6: Sleep At Least 7 Hours a Night
-  Bonus: Free Personalized Fat Loss Road Map

Rule 1: Walk 20,000 Steps a Day 0:00

- Target **20,000 steps** per day as a daily movement goal
 - Increases non-exercise activity thermogenesis (NEAT), a major driver of total daily calorie burn

Rule 2: Track Your Calories and Macros 0:00

- Log both calorie intake and macronutrient breakdown consistently
 - Awareness of what you eat is foundational to creating and maintaining a calorie deficit

Rule 3: Eat One Gram of Protein Per Pound of Body Weight 0:00

- Consume **1 gram of protein per pound of body weight** daily
 - Supports muscle retention during a fat loss phase, which becomes increasingly important for men over 30 as muscle mass naturally declines

Rule 4: Stop Drinking Your Calories 0:00

- Eliminate or drastically cut calorie-containing beverages
 - Liquid calories (sodas, juices, alcohol, fancy coffees) add up quickly without providing satiety, making a deficit harder to maintain

Rule 5: Train Full Body Workouts Four Times a Week [0:00](#)

- Perform **full body resistance training sessions 4 times per week**
 - Full body frequency maximizes muscle stimulus and calorie burn across the week compared to split routines with lower per-muscle frequency

Rule 6: Sleep At Least 7 Hours a Night [0:00](#)

- Get a minimum of **7 hours of sleep** each night
 - Poor sleep elevates cortisol and hunger hormones, undermining fat loss efforts and recovery from training

Bonus: Free Personalized Fat Loss Road Map [0:00](#)

- Comment "road map" on the video and Brandon Carter will send a **free personalized fat loss road map**
 - The transcript cuts off before all 10 rules are stated; only 6 rules are captured in the available source material
