

Steal My \$20M Funnel 💰

Channel: Brandon Carter · Published: Oct 01, 2026 · Watch: <https://www.youtube.com/shorts/CZtWRmzBEIA> Source: full transcript

📋 Executive Summary

Brandon Carter breaks down his \$20M online funnel: post everywhere daily, give away free tools to capture leads, book calls on the thank-you page, and follow up with every lead using humans plus AI — all inside Go High Level.

📄 Contents

- 🚀 Step 1: Post Multiple Times a Day on Every Platform
- 📁 Step 2: Give Away Something Free in Every Post
- 📄 Step 3: Landing Page & Lead Capture
- 🙏 Step 4: The Thank-You Page Call Booking Trick
- 📞 Step 5: High-Ticket Sales via Zoom Calls
- 🤖 Step 6: Follow Up with Every Lead Indefinitely
- 🛠️ Tool Spotlight: Go High Level

🚀 Step 1: Post Multiple Times a Day on Every Platform 0:00

- The funnel starts with maximum content distribution — post multiple times per day across every platform simultaneously
 - Platforms used: Instagram, TikTok, and YouTube Shorts
 - Tool: **Go High Level** — upload one video once and it auto-publishes to all three platforms
 - Eliminates the need to manually post on each platform separately

📁 Step 2: Give Away Something Free in Every Post 0:22

- Every single post should include a free giveaway to drive engagement and capture leads
 - Mechanic: when someone comments a specific keyword/word, the free item is automatically DM'd to them
 - Tool used for this automation: Go High Level (he notes many people use ManyChat, but prefers one platform to avoid multiple subscriptions)
- What to give away matters — the type of freebie significantly affects conversion
 - Old approach: ebooks and free guides — these still work
 - Better approach: **free tools, surveys, or questionnaires** that are personalized to the individual

- Personalized tools outperform static PDFs because they feel tailored to the recipient
- AI can be used to build these kinds of interactive tools quickly
- Go High Level has a built-in builder (compared to Lovable) that lets you create these tools and integrates them directly into the CRM

Step 3: Landing Page & Lead Capture 0:46

- If you are giving away an ebook or static resource, do NOT just send the link directly
 - Instead, send them to a **landing page** first
 - Collect: name, email, and phone number before delivering the freebie
 - All collected info feeds directly into Go High Level, where they are added as a trackable lead
 - This enables ongoing follow-up rather than a one-time transaction

Step 4: The Thank-You Page Call Booking Trick 1:09

- After the lead submits their info, they land on a thank-you page — this page is a major missed opportunity for most people
- What the thank-you page should include:
 - A video congratulating them on taking action
 - A direct link or widget to **book a call** right then and there
- Why this works: the lead is at peak engagement right after opting in — many will book immediately if given the chance
