📱 Tool 1: iPhone for Content 0:00

- An iPhone is sufficient for shooting content — no fancy camera needed
 - Brandon notes he owns expensive cameras but still films everything on his iPhone

🎤 Tool 2: Wireless Mic for Audio 0:00

- A wireless mic is essential so your audio sounds professional
 - Brandon uses **Hollow Land mics** — small, compact mics visible on-camera in the video

💬 Tool 3: Automated DMs 0:00

- A tool that automatically sends DMs to people who comment on your posts
 - Brandon uses **Go High Level** for this automation

🌐 Tool 4: Landing Page for Lead Capture 0:00

- A website is not required, but a landing page is necessary
 - Purpose: collect contact information from leads who download free guides or inquire about coaching
 - Go High Level handles landing page setup as well

Tool 5: CRM for Lead Nurturing & Booking 0:22

- A CRM that can send texts, emails, and DMs to all leads
 - Brandon uses Go High Level for this too
- Calendar booking built in — prospects can book themselves for sales calls and check-ins
 - All scheduling functionality is native to Go High Level

Brandon has been using Go High Level for over **8 years** across all his businesses — it is his single consolidated platform for the entire stack.
