Executive Summary

ZssBecker expresses uncertainty about short-term price direction but is confident current crypto prices will look very cheap a year from now, delivering the outlook with crude humor at Cardano holders' expense.

Sep 18, 2026 · 2:19 PM

Dono if we go up or down here.

But clear as a hippo, these prices will be cheap as a Cardano holders wife's Only Fans this time next year.

That means really cheap.

As you know, Ada holders only pull hoppers.
