

The real secret to getting a six-pack without training abs! 🤖

Channel: Brandon Carter · Published: Jul 28, 2026 · Watch: <https://www.youtube.com/shorts/M22qbOSUzyY> Source: full transcript

Executive Summary

Dedicated ab training is unnecessary — compound movements already work the core, and visible abs come down to diet. A free AI-powered macro calculator called the RIP Road Map tells you exactly what to eat to get ripped.

- 🏋️ Why You Don't Need Direct Ab Training
- 🥗 Diet Is the Real Secret to Visible Abs
- 🗺️ The RIP Road Map: Free AI Calorie & Macro Tool

Why You Don't Need Direct Ab Training 0:00

- The host states he hasn't done any dedicated abdominal work in years
- Compound movements provide sufficient ab stimulation on their own
 - Examples mentioned: squats and bench press
 - These multi-joint exercises engage the core as a stabilizer throughout the movement

Diet Is the Real Secret to Visible Abs 0:08

- The most important factor for a visible six-pack is having your diet on point
- The core insight: you may already have a six-pack, but it's hidden under a layer of fat

"You might have a six-pack right now, but it's covered with some fat."

- To reveal abs, you must get your diet dialed in by knowing your daily calorie and macro targets

The RIP Road Map: Free AI Calorie & Macro Tool 0:21

- Brandon offers a free tool called the **RIP Road Map** to solve the diet calculation problem
- How it works — inputs required:
 - Height
 - Weight

- Gender
- Your goal
- A photo of yourself
- What the AI outputs:
 - An estimate of your current body fat percentage
 - How much total body fat you are carrying
 - The exact daily calorie and macro targets needed to reach your goal
- Cost: **100% free**
- How to get it: comment the word "road map" and it gets sent to you directly
