-  Habit 1: Set Up Daily Sales Blocks
-  Habit 2: Start 20 DM Conversations Per Day
-  Habit 3: Track All Your Numbers
-  Habit 4: Review Each Sales Call with AI
-  Bonus: Personalized Revenue Game Plan

Habit 1: Set Up Daily Sales Blocks 0:00

- Dedicate a fixed, recurring block of time each day specifically for sales activity
 - Two distinct uses for this block:
 - Conducting sales calls
 - Following up with warm leads
- The point is intentionality — treating sales as a scheduled commitment, not something done randomly

Habit 2: Start 20 DM Conversations Per Day 0:05

- Goal is **20 real conversations daily** with potential leads via direct messages
- A conversation is strictly defined: you message someone AND they message back
 - If they don't reply, it counts as outreach — not a conversation
 - Example used: "My boy John has DM'd Sydney Sweeney hundreds of times, but she never replied, so they have never had a conversation."
- Expect to do up to **100 outreaches** to generate 20 actual conversations
 - The 100-outreach figure sets realistic expectations for the effort required

Habit 3: Track All Your Numbers 0:23

- You cannot improve what you don't measure — tracking is non-negotiable
- Five specific metrics to monitor:
 - Leads per week
 - Booked calls per week
 - Show rate (what percentage of booked calls actually show up)
 - Close rate (what percentage of calls result in a sale)
 - Cash collected per sales call

Habit 4: Review Each Sales Call with AI 0:35

- Record every sales call and upload the recording or transcript to an AI tool
- Recommended tools: **Claude** or **ChatGPT**
- Ask the AI to evaluate three things:
 - What you did right
 - What you did wrong
 - How you can improve your sales skills
- This creates a low-cost, scalable coaching loop for continuous skill development

Bonus: Personalized Revenue Game Plan 0:46

- Brandon Carter claims to have helped over **15,000 people** grow successful online fitness businesses
- Offer: comment the word "revenue" to receive an AI tool
 - The tool asks a few questions and maps out exactly what actions to take daily to hit income goals as an online trainer
