The 20,000 Steps Daily Schedule 0:00

- Brandon Carter claims 20,000 steps a day will get you "super ripped"
 - He bases this on **27 years** of training thousands of people
- The schedule is broken into three main walking blocks:
 - Morning walk — 30 minutes upon waking → ~3,000 steps
 - After-lunch walk — 30 minutes → ~3,000 steps
 - After-work walk — 60 minutes → ~6,000 steps
 - This one is specifically noted as social — ideal to do with family or friends
- These three blocks alone total ~12,000 steps

The Cheat Code: Hourly Office Walks 0:22

- The remaining ~8,000 steps come from short walks during the workday
 - Set an alarm every hour during an 8-hour workday
 - Take a 10-minute walk each hour — even just around the office
 - 8 walks × ~1,000 steps each = ~8,000 additional steps
- Combined with the three scheduled walks, this hits **20,000 steps per day**

"If you do that, you will get 20,000 steps per day and you will get an amazing shape."

Walking Block	Duration	Approx. Steps
Morning (upon waking)	30 min	3,000
After lunch	30 min	3,000
After work	60 min	6,000
Hourly office walks (×8)	10 min each	8,000
Total	—	20,000
