Executive Summary

ZssBecker posted a strong style opinion aimed at young men, insisting that while any traditional watch is acceptable, wearing an Apple Watch is categorically off-limits and beneath them.

Young men. I want you to listen to me. Now. It's important.

If you wear a watch. You may wear a nice to the nine's watch. You may also wear a functional \$9 beater.

But you MUST NEVER wear an apple watch.

Ever. Wear a purse before stooping to this.
