Executive Summary

ZssBecker laments what he sees as the ideological ruin of Western entertainment media over the past decade, and argues that creative breakthroughs come from relentless hard work rather than waiting for inspiration.

The luck and creativity you are waiting for in life

Will find you when you grind the long long long fruitless hours of work.

The muse finds the man in trenches shoveling the shit.

Not the man waiting for just-the-right-moment to pick up the shovel. Quantity breeds quality.
