# I Edit My Videos By Talking (Part 4)

Channel: Brandon Carter · Published: Nov 02, 2026 · Watch: https://www.youtube.com/shorts/qheZuO7PCnc Source: full transcript

## 📋 Executive Summary

Brandon Carter shows how he edits all his content — short-form and long-form YouTube — purely by talking to Claude and ChatGPT, demonstrating a variety of AI-generated visual effects in real time.

## 📑 Contents

- 🤖 AI-Powered Video Editing Workflow
- 🎬 Live Visual Effects Demonstrated

## 🤖 AI-Powered Video Editing Workflow 0:00

- Brandon's core claim: he no longer manually edits any of his videos
  - Uses **Claude** and **ChatGPT** as his editing tools
  - Applies to both short-form content (reels/shorts) and long-form YouTube videos
- The workflow is conversational — he describes what he wants and the AI executes it

## 🎬 Live Visual Effects Demonstrated 0:07

- He walks through several visual effects generated on command:
  - Displaying his top-performing reels on screen
  - Placing client transformation images behind him
  - Making top reels spin around him in a circle
  - Generating a checklist graphic
  - Throwing headline text behind him
  - Applying an "action movie" style effect
  - Zooming in on himself — though he notes it got "a little too close"
