

Steal My \$20M Funnel

Channel: Brandon Carter · Published: Oct 01, 2026 · Watch: <https://www.youtube.com/shorts/CZtWRmzBEIA> Source: full transcript

Executive Summary

Brandon Carter walks through his five-step funnel — multi-platform posting, free giveaways via DM, lead capture landing pages, thank-you page call booking, and indefinite AI + human follow-up — all powered by Go High Level.

Contents

-  Step 1: Post Multiple Times a Day on Every Platform
-  Step 2: Give Away Something Free in Every Post
-  Step 3: Send Leads to a Landing Page (Not Just the Link)
-  Step 4: Book Calls on the Thank-You Page
-  Step 5: Follow Up with Every Lead Indefinitely
-  Tool Spotlight: Go High Level

Step 1: Post Multiple Times a Day on Every Platform 0:00

- Post high-frequency content across all major short-form platforms simultaneously
 - Platforms covered: Instagram, TikTok, and YouTube Shorts
 - Upload once and the tool distributes everywhere — no manual reposting
- Tool used: **Go High Level**
 - Eliminates the need to manage multiple scheduling or cross-posting subscriptions

Step 2: Give Away Something Free in Every Post 0:22

- Every post offers a free resource triggered by a comment keyword
 - When someone comments a specific word, the freebie is automatically DM'd to them
 - Go High Level handles this automation (he notes many use ManyChat but prefers one unified platform)
- What to give away matters — free tools outperform passive content
 - Old approach: ebooks, free guides — still work but are less effective
 - Better approach: free tools, surveys, or questionnaires that feel personalized to the user
 - AI can be used to build these interactive assets
 - Go High Level has a builder (described as similar to Lovable) that creates these tools and integrates them directly into the CRM

Step 3: Send Leads to a Landing Page (Not Just the Link) 0:46

- If giving away an ebook or static resource, don't DM a direct download link
 - Instead, send them to a **landing page** that captures contact info first
 - Fields to collect: name, email, phone number
 - Once submitted, the lead is automatically added to Go High Level as a followable contact
- This converts a casual DM interaction into a trackable, actionable lead in the CRM

Step 4: Book Calls on the Thank-You Page 1:09

- After the lead submits their info, the thank-you page is a critical conversion moment
 - Include a video congratulating them on taking action
 - Include a direct link to book a sales call right on that page
- Why this matters: "If y'all not doing that, you leaving tons of money on the table"
 - Most funnels only send the resource link via DM — the thank-you page gives an immediate second chance to convert
 - A significant portion of people will book a call right there if given the option
- The end goal is selling a **high-ticket offer**, which requires a sales call over Zoom
 - High-ticket products can't be sold passively; they need a conversation to close

Step 5: Follow Up with Every Lead Indefinitely 1:31

- No lead should go unfollowed — follow up with every contact without a time limit
 - His team does outreach themselves first
 - When leads slip through the cracks, AI steps in to follow up automatically
- Human + AI hybrid follow-up ensures full coverage of the lead list
 - Goal: "make sure that we are actually hitting up every lead because we don't want to leave no money on the tape"
- All of this follow-up infrastructure runs inside Go High Level

Tool Spotlight: Go High Level 1:54

- Brandon has used Go High Level across his businesses for approximately **8 years** consecutively
- Functions it handles in this funnel:
 - Multi-platform content scheduling and posting
 - Automated DM delivery of free resources
 - CRM and lead management from landing page opt-ins
 - Interactive tool/survey builder (integrated directly into the CRM)
 - AI and human follow-up sequences

- Preferred because it consolidates everything into one subscription instead of paying for multiple tools (e.g., ManyChat + separate schedulers + separate CRMs)
- **Free offer:** Comment "GHL" on the video to receive a free 30-day trial link via DM
