My Social Media and Sales in One Dashboard

Channel: Brandon Carter · Published: Nov 01, 2026 · Watch: https://www.youtube.com/shorts/Nu7eFyWb6iU Source: full transcript

📋 Executive Summary

Brandon Carter walks through GoHighLevel, his all-in-one CRM of nearly 10 years, demonstrating how it consolidates social media management, lead generation, sales operations, and customer communications into a single dashboard.

📑 Contents

- 🛠️ What GoHighLevel Is and Why Brandon Uses It
- 📱 Social Media Posting and Codeex Integration
- 📬 Unified Inbox: DMs, Texts, and Emails
- 🎯 Sales, Lead Generation, and Automation Features
- 🔗 Free Trial Offer

🛠️ What GoHighLevel Is and Why Brandon Uses It 0:00

- GoHighLevel is the CRM (Customer Relationship Management) tool Brandon has relied on for **almost 10 years** to grow and build his business
- Core capabilities he highlights:
  - Managing all customers and leads
  - Building lead magnets and digital assets
  - Running his entire sales operation
- He demos a sub-account rather than his main account to avoid exposing sensitive business data

📱 Social Media Posting and Codeex Integration 0:22

- GoHighLevel can post to **all social media platforms** directly from the dashboard
- Brandon has integrated GoHighLevel into Codeex (an AI tool he uses)
  - Workflow: he instructs Codeex to post content, Codeex triggers GoHighLevel, and the post goes out across platforms automatically
  - Even without the Codeex integration, users can post to all platforms manually from within GoHighLevel itself

📬 Unified Inbox: DMs, Texts, and Emails 0:44

- GoHighLevel aggregates all business communications in one place:
  - All DMs from social media platforms
  - All leads coming in
  - Text messages being sent out
  - Email replies from contacts

    > "I can see everything in our business, right?"
- This single-view approach eliminates the need to switch between multiple apps or inboxes

🎯 Sales, Lead Generation, and Automation Features 0:44

- "Comment this word and I'll send you this thing" Instagram automation — a common engagement tactic — is fully set up and run through GoHighLevel
- Calendar and meeting booking is handled inside GoHighLevel
- Most of Brandon's websites and landing pages are built and hosted through GoHighLevel
- He describes being able to do **everything** from a single GoHighLevel account

🔗 Free Trial Offer 1:05

- Brandon offers viewers a **free 30-day trial** to GoHighLevel
  - Link is available in the video description
  - Positioned as the same tool he personally uses to run his business
