🛠️ Step 1: Use MetaMuse to Find Proven Content Ideas 0:00

- Open **MetaMuse** — described as free and automatically connected to Instagram
- Use it to pull the top-performing videos from your top five competitors in your niche
  - Filter to keep only the videos that did **10 times** their creator's normal view count
  - Reasoning: these ideas are already market-proven — no guessing required
- MetaMuse is also connected to your own Instagram account
  - It studies how you talk, your caption style, and your existing videos
  - Instruct it to rewrite those winning competitor concepts as scripts written in your voice
  - Result: proven ideas delivered in an authentic, on-brand format

🎬 Step 2: Post 2-3 Reels Per Day Using Three Content Types 0:22

- Post scripts generated by MetaMuse as **2-3 Reels per day**, each serving a distinct purpose

Reel Type	Purpose	Goal
Problem-solving Reel	Solves a specific problem for your ideal client	Gets you paying clients
Viral/Reach Reel	Built to maximize reach and go viral	Gets you seen by new audiences

Reel Type	Purpose	Goal
Personal Story Reel (optional 3rd)	A story about a problem you overcame that your target market relates to	Builds trust

- Each type plays a distinct role in the funnel:
  - Niche reels attract the right buyers
  - Viral reels expand your audience
  - Story reels deepen emotional connection and credibility

🎁 Step 3: Create a Free Guide as a Lead Magnet 0:45

- Have MetaMuse put together a **free guide** tailored to help your ideal client accomplish their goals
- Promote the guide directly inside your Reels
  - Tell viewers to **comment a specific word** on the Reel to receive the free guide
  - This triggers engagement and signals genuine interest from potential clients

🤖 Step 4: Set Up Comment-to-DM Automation 0:45

- Use **Go High Level** to set up the automation
  - Anyone who comments the trigger word receives an **instant DM** with the free guide
  - Removes manual follow-up; captures leads in real time at scale

📞 Step 5: Convert DM Conversations into Sales Calls 1:07

- Once the automation sends the guide, begin real conversations with people who commented
  - Use a specific **DM script** (referenced but not fully detailed in the transcript) to move the conversation forward
  - Goal of the DM conversation: **book them onto a sales call**
  - Close the call to convert leads into paying clients and reach the $10K/month target

> The core insight: combine AI-generated, voice-matched content with automated lead capture so the funnel works continuously — content attracts, automation qualifies, and DMs close.
