🎮 The Core Rule: Only Game During Cardio 0:00

- The single governing rule is that the Switch is **only** allowed during cardio — never as passive entertainment
  - This turns what would be sedentary gaming time into productive workout time
- Equipment setup is in his office for convenience and consistency
  - Treadmill in the office
  - Exercise bike also purchased and kept there
- Example of a traditional controller game used this way: Smash Bros.
  - Even a standard gamepad game becomes acceptable because the cardio machine is running simultaneously

🕹️ Using JoyCons for Motion-Controlled Fitness Games 0:00

- Key Switch feature: JoyCons detach from the console, enabling full motion-controlled gameplay
  - Brandon describes discovering this capability as a revelation:
