Executive Summary

Brandon Carter shares three books from multiply your money that shaped his financial success: Dot Com Secrets, Buy Back Your Time, and Expert Secrets — covering online funnels, time leverage, and copywriting.

Contents

-  Book 1: Dot Com Secrets
-  Book 2: Buy Back Your Time
-  Book 3: Expert Secrets

Book 1: Dot Com Secrets 0:00

- **Author:** Russell Brunson, whom Brandon considers one of his personal mentors
- Brandon kept the physical book in his backpack and carried it everywhere when he was first starting out, rereading it constantly
- He credits the book with helping him make "literally millions of dollars"
- Caveat: Brandon notes much of the content feels dated now and he is unsure he would recommend it to someone discovering it today
 - The recommendation is tied heavily to its impact at the time it was released

Book 2: Buy Back Your Time 0:21

- **Author:** Dan Martell — Brandon refers to him as "my boy Dan Martell"
- Core concept: estimate your effective hourly rate from your business, then delegate any task that costs less than that rate
 - By working during the time someone else handles that task, you net the difference
- Concrete example Brandon walks through ("simple math"):
 - Assume you earn **\$100/hour** from your business
 - You pay someone \$50 to clean your house
 - You work during that cleaning window → you net \$50
 - If you had cleaned the house yourself instead of working, you don't "save" \$50 — you actually **lose \$100** in foregone earnings

- Brandon says he had been making this same argument for a long time but felt people dismissed him; he credits Dan Martell with articulating it more clearly and persuasively than he could

Book 3: Expert Secrets [0:44](#)

- **Author:** Russell Brunson (second Brunson book on the list)
- Unlike Dot Com Secrets, Brandon says he **would still recommend this one today**
- Positioned as "probably required reading" for anyone:
 - Building any kind of online business
 - Wanting to learn copywriting
- Described as "one of the best books on the subject"
- Brandon rereads it once or twice every year and says he learns something new each time

"Every time I learn something" — Brandon on why he returns to Expert Secrets annually, implying the book rewards repeated reading at different stages of growth.
