Executive Summary

ZssBecker argued that many people mistake normal human emotions for mental illness due to avoiding quiet self-reflection, and separately engaged in conversation about a software tool's value and ROI with another user.

@naterez94 @hyros_official Appreciate the feed back. Few questions.

Its \$350 a month for \$40k revenue. This is the cheaper/same as twhale/northbeam.

I don't see anyway to provide the level of support we do (full team, people who analyze help optimize the account) for less than that.

At the \$1900 level

Oct 08, 2026 · 6:44 AM

@RaggyBruh @naterez94 @hyros_official What's the account email @RaggyBruh , that shouldn't happen.

Oct 08, 2026 · 6:45 AM

@RaggyBruh @naterez94 @hyros_official and @RaggyBruh was this after you resigned up or were you just emailing sales?

Oct 08, 2026 · 6:52 AM

@RaggyBruh @naterez94 @hyros_official Still looking into how that got missed. Ana is a really good rep. Appreciate the tag.

Oct 08, 2026 · 7:08 AM

@HizamAbbasi @naterez94 @hyros_official yeah I'm sorry no is replicating & maintaining the hyros tracking network at any reasonable cost or our support team.

And if your running \$500k a month in ad revenue, cutting \$500 in cost to manage your own "maybe it works" vibe coded solution you can't trust and hiring a dev to

Oct 08, 2026 · 7:41 AM

@naterez94 @hyros_official @naterez94 also sent you a DM. Would love your feedback on the value/ROI on the software and what you think is fair for what you're doing.

I think you are doing it for @costseguys right? Bookings/demos. If so it should be a perfect fit, so I'm a little shook the value isn't

Oct 08, 2026 · 12:53 PM

@beatyourcontrol @naterez94 @hyros_official What's your account email, id like to see what your speaking about.

Our support is literally the thing that people comment as the best part of our product. We have a near perfect trustpilot score its usually one of the top things cited.

Not saying your wrong. Please get me the

@vovweb3 @naterez94 @hyros_official @costseguys Sir if your doing 1 million a month in ads...your flying blind without good service side tracking.

The usual increase/waste reduction is 5-15% of the accounts revenue.

Aka about \$30-\$150k in saving/revenue boosted/increased scale.

No. The price is literally based on ROI.

Oct 08, 2026 · 12:56 PM

@Warby8888 @naterez94 @hyros_official Some business do a mil a month but dont spend that much on ads and the pricing doesn't always make sense for them. Plenty of reasons.

Oct 08, 2026 · 2:19 PM

@naterez94 @hyros_official @naterez94 your 100% right. For example HYROS does well...many millions a month...But I only spend like \$100k a month on ads. 95% of our revenue is rebills.

Our pricing model that your on wouldn't work for us either.

I sent you a DM, we have other billion options for non ad

Oct 08, 2026 · 3:33 PM

@Noahcryptoreal @naterez94 @hyros_official @costseggguys Dont really care, free angry feedback is the best feedback to improve your company on.

If someone care enough to spend that much and then publicly cancel, they really cared.

Oct 08, 2026 · 4:31 PM

@jack226RE @naterez94 @hyros_official yes the entire basis of HYROS is we justify our cost and next you a 20x on the software minimum (or an ROI you're satisfied with) or you don't pay. It's literally in our guarantee.
